SIJHSAA Transfer/Eligibility Rules
(For 2019-2020 School Year)

Article I: Eligibility – Section 6: Transfers:

1. Residency Change Transfers: The student transfer is in conjunction with a move by his/her parents or the parent who has legal custody of the student from one school district to another. If the transfer is made to the receiving school during the summer break, the student shall become eligible immediately. If the transfer occurs after the first day of school attendance, the student shall sit out 10 attendance days and become eligible the day following.

   a. If a student moves, with his or her family from one member public school district to another public member school district, which also contains a private/parochial member school, the student may have a one time choice as to attending the public school or the parochial school within the new district.

   b. If a student’s transfer is based upon his/her being emancipated, an orphan, the student’s parents being divorced or separated, a ward of the state or court, or a child whose legal guardianship has been changed by a judge, his/her case shall be subject to review by the Executive Director. An official ruling must be secured from the SIJHSAA before any such student may be considered eligible. Change in legal guardianship is only one factor to be considered by the SIJHSAA when ruling on such cases. Changes in guardianship does not automatically make a student eligible. Also, the 10 Attendance Day Rule applies.
2. **Non-Residency Change Transfers:** The transfer is from a private/parochial school/home school to a public school or from a public school to a private/parochial school, with no residency change, and the principals of both schools involved accept the transfer, concurring that there is no evidence of recruitment in connection with the transfer. The student would be ineligible 15 attendance days at the accepting school. The 15 attendance day period of ineligibility would start on the first day of attendance at the accepting school and would become eligible the day following. No more than one(1) transfer per school year, without a residency change will be allowed.

   a. **Non-Public to Non-Public Transfer:** If the transfer is from a non-public school to another non-public school within a 30 mile radius of the student’s home and the principals of both schools accept the transfer, concurring that there is no evidence of recruiting in connection with the transfer. Once again, the 15 Attendance Day Rule applies. No more than one(1) transfer per school year, without a residency change will be allowed.
